Report on Review of Consolidated Condensed Interim Financial Information

To the Shareholders and Board of Directors of Open Joint Stock Company "Sollers":

Introduction

We have reviewed the accompanying consolidated condensed interim statement of financial position of Open Joint Stock Company "Sollers" and its subsidiaries (together, the "Sollers Group" or the "Group") as at 30 June 2012 and the related consolidated condensed interim statements of comprehensive income, cash flows and changes in equity for the six-month period then ended. Management is responsible for the preparation and presentation of this consolidated condensed interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this consolidated condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review nothing come to our attention that cause us to believe that the accompanying consolidated condensed interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

The accompanying notes on page 8 to 15 are an integral part of this consolidated condensed interim financial information.

1 The Group and its operations

The consolidated condensed interim financial information has been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" for the six-month period ended 30 June 2012 for OJSC Sollers (the "Company") and its subsidiaries (the "Group").

The Company and the Group's principal activity is the manufacture and sale of vehicles, including automotive components, assembly kits, and engines. The Group's manufacturing facilities are primarily based in Ulyanovsk, the Nizhniy Novgorod region, and Vladivostok in the Russian Federation.

On 1 October 2011 the Group has established the joint venture with Ford with production assets located in Vsevolozhsk in the St.Petersbugr region, Naberezhnye Chelny and Elabuga in the Republic of Tatarstan. Ford-Sollers joint venture is intended for exclusive production and distribution of Ford branded vehicles in Russia. By the end of 2011 the Group established the joint venture with Japanese Mitsui&Co., Ltd located in Vladivostok, where Toyota vehicles are planned to be produced. During the second half 2012 the Group intends to finalize the foundation of the joint venture with Mazda Motor Corporation in Vladivostok also (Note 18) for production of Mazda SUVs and passenger cars.

The Company was incorporated as an open joint stock company in the Russian Federation in March 2002 by OAO "Severstal" (the predecessor) by contributing its controlling interests in OAO "Ulyanovsky Avtomobilny Zavod" (OAO "UAZ") and OAO "Zavolzhskiy Motor Works" (OAO "ZMZ"), which were acquired through purchases close to the end of 2000, in exchange for the Company's share capital.

The immediate parent company is Newdeal Investments Limited. The ultimate controlling party of the Group is Vadim Shvetsov who is the principal shareholder of the Company.

The Company's shares are listed on MICEX-RTS.

The registered office of the Company is Testovskaya street, 10, Moscow, Russian Federation.

This consolidated condensed interim financial information was approved for issue by the General Director and Chief Financial Officer on 7 September 2012.

Operating Environment of the Group

The Russian Federation displays certain characteristics of an emerging market, including relatively high inflation and high interest rates. The recent global financial crisis has had a severe effect on the Russian economy and the financial situation in the Russian financial and corporate sectors significantly deteriorated since mid-2008. Starting from 2011 the Russian economy demonstrated a moderate recovery of economic growth. The recovery was accompanied by a gradual increase of household incomes, lower refinancing rates, stabilisation of the exchange rate of the Russian Rouble against major foreign currencies, and increased liquidity levels in the banking sector. In particular, a number of these factors have helped the automotive industry in general to recover and sales of new vehicles in Russia have significantly increased during the year ended 31 December 2011 and first half 2012 to date compared to the previous periods, although volumes are yet to return to the peak levels achieved prior to the onset of the financial crisis.

The tax, currency and customs legislation within the Russian Federation is subject to varying interpretations and frequent changes, and other legal and fiscal impediments contribute to the challenges faced by entities currently operating in the Russian Federation. The future economic direction of the Russian Federation is largely dependent upon the effectiveness of economic, financial and monetary measures undertaken by the Government, together with tax, legal, regulatory, and political developments.

Management is unable to predict all developments which could have an impact on the Russian economy and consequently what effect, if any, they could have on the future financial position of the Group. Management believes it is taking all the necessary measures to support the sustainability and development of the Group's business.

2 Basis of preparation and significant accounting policies

2.1 Basis of preparation

This consolidated condensed interim financial information has been prepared in accordance with International Accounting Standard No. 34, "Interim financial reporting" ("IAS 34"). This consolidated condensed interim financial information does not contain all the information required for the preparation of the annual consolidated financial statements, and should be read in conjunction with the annual consolidated financial statements of the Group for the year ended 31 December 2011 prepared in accordance with International Financial Reporting Standards ("IFRS"). The 31 December 2011 consolidated balance sheet data has been derived from audited financial statements for the year ended 31 December 2011.

2 Basis of preparation and significant accounting policies (continued)

2.2 Significant accounting policies

The accounting policies adopted and critical accounting estimates are consistent with those of the annual consolidated financial statements for the year ended 31 December 2011. The Group has adopted all new standards and interpretations that were effective from 1 January 2012. The impact of the adoption of these new standards and interpretations has not been significant with respect to this consolidated condensed interim financial information.

2.3 Supplementary information

U.S. Dollar ("US\$") amounts shown in the primary statements are translated from the RR as a matter of arithmetic computation only, at the official rate of the Central Bank of the Russian Federation at 30 June 2012 of Russian Rouble 32.8169 = US\$1 (at 31 December 2011 of Russian Rouble 32.1961 = US\$1). The statements of income and cash flow have been translated at the average exchange rates during the six-month period ended 30 June 2012 of Russian Rouble 30.6390 = US\$1 and 30 June 2011 of Russian Rouble 28.5600 = US\$1. The US\$ amounts are presented solely for the convenience of the reader, and should not be treated as a representation that RR amounts have been or could have been converted to the US\$ at this rate, nor that the US\$ amounts present fairly the financial position and results of operations and cash flows of the Group in accordance with IFRS.

Exchange restrictions and currency controls exist relating to converting the RR into other currencies. The RR is not freely convertible in most countries outside of the Russian Federation.

3 Adoption of New or Revised Standards and Interpretations and New Accounting Pronouncements

There are no new IFRSs or IFRICs that are effective for the first time for this interim period that would be expected to have a material impact on this Group.

4 Balances and transactions with related parties

Parties are generally considered to be related if one party has the ability to control the other party, is under common control with, or exercises significant influence over the other party in making financial and operational decisions as defined by IAS 24, "Related Party Disclosures". In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

4.1 Balances and transactions with related parties

	Number of outstanding ordinary shares (thousands)	Number of treasury shares (thousands)	Share capital, RR	Treasury shares	Share premium, RR	Additional paid-in capital, RR
At 31 December 2011	34,270	799	530	(653)	4,893	1,438
At 30 June 2012	34,270	-	530	•	4,466	1,438

The total authorised number of ordinary shares is 82,074 thousand (31 December 2011: 82,074 thousand). The nominal value of all shares is 12.5 roubles per share.

In accordance with Russian legislation, the Company distributes profits as dividends or transfers them to reserves (fund accounts) on the basis of financial statements prepared in accordance with Russian Accounting Rules. The statutory accounting reports of the Company are the basis for profit distribution and other appropriations. Russian legislation identifies the basis of distribution as the net profit.

For the six-month period ended 30 June 2012, the net statutory loss for the Company as reported in the published interim statutory reporting forms was RR 857 (loss for the six-month period ended 30 June 2011: RR 769) and the closing balance of the accumulated profit including the current reporting period net statutory profit as of 30 June 2012 totalled to RR 4,168 (31 December 2011: RR 5,008). However, this legislation and other statutory laws and regulations are open to legal interpretation and accordingly management believes at present that it would not be appropriate to disclose an amount for the distributable reserves in the consolidated condensed interim financial information.

No dividends were declared at the General Shareholders' Meetings during the six-month period ended 30 June 2012 or during the year ended 31 December 2011.

During the six-month period ended 30 June 2012, the Group disposed of 1,047 thousand ordinary shares and acquired 248 thousand ordinary shares (six month ended 30 June 2011 the Group disposed of 513 thousand ordinary shares and acquired 228 thousand ordinary shares).

Share based compensation

On 10 March 2009, the Group granted to members of key management and other employees options to acquire 855,000 of the Group's ordinary shares at an exercise price of US\$ 3 that represented the average market share price for the three months preceding the grant date. The market share price at the grant date was US\$ 3. The vesting period for the options is one year for 285,000 options; two years for 285,000 options and three years for 285,000 options. These options are exercisable until 1 March 2013 subject to an employee meeting certain conditions, including remaining in employment in the Group up until the date of vesting. During the six-month period ended 30 June 2012, 248,000 options were exercised (six-month period ended 30 June 2011, 228,000 options were exercised) and 94,000 options were forfeited.

On 30 May 2007, the Group granted to members of key management and other employees options to acquire 790,000 of the Group's ordinary shares at an exercise price of US\$ 30.50 which represented the average market share price for the three months preceding the grant date. The market share price at the grant date was US\$ 30. Options on 150,000 shares are exercisable for three years after a one-year vesting period, subject to certain conditions, including the employee remaining in employment in the Group up until the vesting date. Options on 640,000 shares were exercisable for two years after a two-year vesting period, although this option to exercise was cancelled by the Group on 10 March 2009.

11 Other long-term liabilities

In May 2012 the Group's subsidiary Sollers-Isuzu signed a Rescheduling agreement with a major supplier. The debt was rescheduled till 2015. Accordingly the amount of RR 536 was reclassified into long-term liabilities.

15 Segment information

The Group has adopted IFRS 8, "Operating segments" with effect from 1 January 2009. IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group which are regularly reviewed by the 'chief operating decision maker' in order to allocate resources to segments and to assess their performance. The Group's operating segments are reported based on the financial information provided to the Group's Chief Executive Officer and that are used to make strategic decisions.

In 2010, the Group began to restructure its retail network following changes to the Group's distribution strategy. As a result of these changes, in 2010 the retail segment has become immaterial for review by the Chief Executive Officer and thus is no longer disclosed as a separate segment but instead included within the automotive segment.

In 2011 the Group began to restructure its automotive and engine segments after UAZ has become the major customer of ZMZ. The sales of engine segment became immaterial in terms of segment reporting and thus is no longer disclosed separately.

15 Segment information (continued)

The Group's production facilities are wholly located within the Russian Federation, and almost all sales are domestic.

The Chief Executive Officer reviews financial information prepared on the basis of Russian accounting standards adjusted to meet the requirements of internal reporting. Such financial information differs in certain aspects from International Financial Reporting Standards, including in relation to inventory provisions; receivables provisions and other adjustments.

Performance is evaluated regularly on the basis of operating profit or loss. Accordingly, foreign currency gains/ losses, interest income/ expenses, income tax charges and information on assets and liabilities are excluded. Revenues from external customers are presented in Note 14. Management considers that across the range of vehicles and models produced; these are considered as similar products. During the six months ended 30 June 2012 and 30 June 2011 the Group did not have transactions with a single external customer that amounted to ten per cent or more of the Group's revenues.

Inter-group transfers or transactions are entered into under the normal commercial terms and conditions that would also be available to unrelated third parties.

16 Contingencies, commitments and operating risks

16.1 Contractual commitments and guarantees

As at 30 June 2012, the Group had contractual commitments of RR 133 for the purchase of property, plant and equipment from third parties (31 December 2011: RR 129).

16.2 Taxation

Russian tax and customs legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant authorities.

The Russian tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments, and it is possible that transactions and activities that have not been challenged in the past may be challenged. The Supreme Arbitration Court issued guidance to lower courts on reviewing tax cases providing a systemic roadmap for anti-avoidance claims, and it is possible that this will significantly increase the level and frequency of tax authority's scrutiny.

As a result, significant additional taxes, penalties and interest may be assessed. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods.

Different interpretations and applications of the Russian Tax Code are possible. For example, in relation to Russian taxpayers where outstanding loans are controlled by a foreign company owning directly or indirectly more than 20% of the charter capital of the Russian entity, thin capitalisation limits could be applied to the respective loan interest under certain circumstances even where loans are with other subsidiaries or Russian banks for the purpose of financing Russian business activities. As Russian tax legislation does not provide definitive guidance in certain areas, other tax matters including assessment of tax bases could also have different interpretations. Nonetheless management believes that its interpretation of the relevant legislation is appropriate and the Group's tax, currency legislation and customs positions will be sustained.

Amended Russian transfer pricing legislation took effect from 1 January 2012. The new transfer pricing rules appear to be more technically elaborate and, to a certain extent, better aligned with the international transfer pricing principles developed by the Organisation for Economic Cooperation and Development (OECD). The new legislation provides the possibility for tax authorities to make transfer pricing adjustments and impose additional tax liabilities in respect of controlled transactions (transactions with related parties and some types of transactions with unrelated parties), provided that the transaction price is not arm's length. Management has implemented internal controls to be in compliance with the new transfer pricing legislation.

Management is in process of preparation of the required documentation on the transfer pricing by 20 May 2013, which will provide sufficient evidence to support the Group's tax positions and related tax returns. Given that the practice of implementation of the new Russian transfer pricing rules has not yet developed, the impact of any challenge of the Group's transfer prices cannot be reliably estimated. Management estimates that possible exposure in relation to risks referred to above could substantially reduce recognised losses carried forward as at 31 December 2011. However, management do not anticipate any tax exposures will arise in practice.

16 Contingencies, commitments and operating risks (continued)

- 16.3. Legal proceedings. From time to time and in the normal course of business, claims against the Group may be received. On the basis of its own estimates and internal professional advice, management is of the opinion that no material losses will be incurred in respect of claims.
- 16.4. Covenants. For certain borrowing agreements, the Group is subject to covenant requirements. Breaches of these requirements could give a lender the right to accelerate the repayment period of the borrowings and demand immediate repayment.

As at 30 June 2012 the Group was in full compliance with all covenants (31 December 2011: no exceptions).

16.5. Environmental matters. Environmental regulation in the Russian Federation is evolving and the enforcement posture of Government authorities is continually being reconsidered. The Group periodically evaluates its obligations under environmental regulations. As obligations are determined, they are recognised immediately. Potential liabilities, which might arise as a result of changes in existing regulations, civil litigation or legislation, cannot be estimated but could be material. In the current climate under existing legislation, management believes that there are no significant liabilities for environmental damage.

17 Principal subsidiaries

During the reporting period ended 30 June 2012, as part of an internal Group reorganisation, the Group's effective interest in OAO "Zavolzhskiy Motor Works" was reduced although the Group retained a majority effective interest and there were no changes in voting rights. As a result of this reorganisation, an amount of RR 304 is recognised in the Statement of Changes in Equity.
